安装包一定要是龙哥给大家的:

python-3.9.7-amd64.exe pycharm-professional-2021.1.3.exe

官网在哪里 https://www.jetbrains.com/pycharm/download/other.html 以后你会用到

- 1 本教程适用于 PyCharm 所有版本,(不要搞最新版本)(当然龙哥给的版本是龙哥亲测有效)
- 2 如果按照此教程还无法激活,群里截图提问

安装解释器

首先安装 python-3.9.7-amd64.exe文件, Mac电脑同学, 到这里下载

https://www.python.org/downloads/release/python-397/ (Mac同学如果自带python3.7 及以上版本可以不按照python解释器)

注意全部勾选上

在cmd中输入python,出现如下图代表安装好了

```
C:\Users\Administrator>python
Python 3. 9. 7 (tags/v3. 9.7:1016ef3, Aug 30 2021, 20:19:38) [MSC v. 1929 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license" for more information.

>>> exit()
C:\Users\Administrator>
```

安装pycharm

双击pycharm-professional-2021.1.3.exe

路径安装默认即可,直接 next

这个全勾选

依次下一步即可

Windows 激活步骤截图如下:

双击桌面pycharm图标启动pycharm

如果这里不能点击 create, 那么如下图选择解释器

激活

1、不要解压,把ide-eval-resetter-2.1.13.zip直接拖到pycharm界面。

3、勾选的Auto reset before restart意思就是每次重启pycharm都会自动重置30天使用期。

如何汉化:

配置解释器方法(用于旧项目打开没有配置解释器的情况下,正常新建项目已经选了解释器)

Mac 激活教程

激活方法参考windows进行即可,不同之处在在于下载时, 下载mac版本pycharm,下载地址

https://www.jetbrains.com/pycharm/download/other.html ,同时Mac的Python解释器不是带exe后缀的,名字就是python
